

## Description

The **CAMIP1** is a single channel, in-line, 10/100 ethernet network video surge protector for IP camera or PoE devices. The CAMIP1 is designed to provide surge protection for one 10/100 ethernet network port. The unit has RJ45 jack connectors at the input and output for connection to the network cable and is ideally suited for small or restricted spaces where the network needs to be protected. The CAMIP1 provides a heavy, single point ground connection and is easy to install in minutes.

## Features

- Insertion loss <0.2 dB
- Heavy single point ground
- Easy to install
- Lifetime warranty

## Specifications

Size (mm)	20 H x 63 W x 33 D
Connection Method	RJ45 Jack connectors
Video Insertion Loss	<0.2dB
Impedance	50 or 75 Ohms
Temperature	-20C to +65C
Frequency	DC to 10 MHz
