

PROTECT M80™ & M90™

Faster, smarter, lighter

Revolutionize your installations

As an installer, your time is valuable. That's why the new PROTECT M80™ and PROTECT M90™ fog cannons are engineered to make every installation faster, smoother, and more professional. These next-generation devices are not just quicker to mount and service - they also offer intuitive setup, lighter handling, and superior reliability.

PROTECT is the market leader in security fog solutions, with 25 years of experience protecting homes and businesses worldwide.

The PROTECT M80™ and PROTECT M90™ are equipped with our advanced **APEX Technology** and **IntelliSuite 2 software**, giving you full control from the moment you unbox the product to long after it's installed. Designed for fast installation and effortless servicing, these units are built to meet the practical needs of modern alarm technicians.

Model overview

PROTECT M80™

- 150 m³ fog in 11 seconds
250 m³ in 25 seconds (1 m visibility)
- Ideal for offices, shops, server rooms

PROTECT M90™

- 200 m³ fog in 12 seconds
300 m³ in 25 seconds (1 m visibility)
- Perfect for larger spaces like warehouses and showrooms, logistics centers, production areas, and storage zones

Key advantages for installers

Time-saving installation

- ⌚ Up to 15 minutes faster to install than older models
- ⌚ Mount on wall, ceiling or in corners - no extra brackets required
- ⌚ Connect via standard USB, no special tools

Easy servicing & support

- ⌚ Step-by-step IntelliSuite 2 guidance (free download)
- ⌚ Remote system monitoring and diagnostics
- ⌚ Service button for safe fog test – no accidental discharges

Lighter, smarter handling

- ⌚ 50% reduced weight makes carrying and mounting easier
- ⌚ Better weight distribution for one-person installations
- ⌚ Cleaner internal layout for quick service access
- ⌚ New sleek design with a total weight of only 6 kg

Engineered for excellence

- ⌚ Powerful new pump = 4x faster fog output
- ⌚ Efficient heating element reduces warm-up time by 50%
- ⌚ Fewer components = fewer error sources

Install with confidence

Whether you're retrofitting an existing system or deploying in a new project, the PROTECT M80™ and PROTECT M90™ give you the flexibility and speed you need to deliver top-quality installations. IntelliSuite 2 ensures every setup is correct and optimized – even for complex alarm systems. With these tools in your van, you spend less time troubleshooting and more time getting jobs done.

Simpler installations. Happier clients. More business.

Both models offer a 5-year warranty for lasting peace of mind and are tested and certified safe for use in food-handling environments.
